

REAGAN OSSAI

Web Developer

SUMMARY

-Creative Front-End Developer offering over 7 years of experience providing high-impact web solutions for diverse industry organizations.
-Skilled in designing, developing and testing multiple web-based applications incorporating a range of technologies but leveraging ReactsJs .
-Aspiring to combine broad background with strong technical skills to excel as a full stack developer
-Self-independent, reliable and friendly individual who works hard to achieve his goals.
-Able to work well in teams as well as individually. My future goal is to become a senior full stack developer

PROFESSIONAL EXPERIENCE

NEXT-ITSERVICES

Web Developer, January 2023

Creating user interfaces leveraging on react as the front end framework.

FRENCH VILLAGE INTERNATIONAL COLLEGE, LG

Web Developer, April 2017 - June 2018

Developed websites from front to backend using, JavaScript, and HTML. Enhanced user experience and accomplish webpage objectives by creating site structure, navigation, page optimization, and graphics integration. Implemented enhancements that improved web functionality and responsiveness.

ASCON, LG

Web Developer, June 2018-September 2021

Manage website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility. Work closely with programmers and clients to meet project requirements, goals, and desired functionality.

PROJECTS

My portfolio project (<https://reaganossai.netlify.app>)

2019

Developed using reactJs, html , css

This project was developed and implemented in 1 week by me. I used this project as a means to draw people closer to my personality as it entails every spectacular detail of which I exist(down to my explorative love for colours).

Kinkiverse App (<https://kinkiverse.netlify.app>)

2023

An e-commerce site to see products gotten from a fake store api and purchase these products

Web Development Scope Course

(<https://reagan-web-dev-tutorial.vercel.app>)

2023

This app provides a tutorial to educate aspiring developers with low or no level or web development knowledge so as to give them a basic knowledge of how to code, how to develop websites or web apps and the basic steps involved in web development.

LENDSQR Project (<https://reagan-ossai-lendsqr-fe-test.netlify.app>)

2023

An app that shows a dashboard which contains numerous users and their information. This dashboard is only visible when logged in

Flight Test App (<https://flighttest.netlify.app>)

2023

The project is an airport app that shows the arrivals and departures from an airport. It has a register page to register users and log into the website based on users stored in local storage. The dashboard of the app is visible once the user is logged in.

Flight Test Two (<https://flighttesttwo.netlify.app>)

2023

The project is an airport app created using angular. It shows the arrivals and departures from an airport. It has a register page to register users and log into the website based on users stored in local storage. The dashboard of the app is visible once the user is logged in.

Next-it Web Dev Scope Courses

(<https://next-itservices-web-dev-tutorial.netlify.app>)

2023

An app which helps to educate interns in a company (with interest in learning web development) on how to code and the basic processes in developing a website.

EDUCATION

CRAWFORD UNIVERSITY, OGUN, LG

Bachelor of Science in Computer Science, May 2021

• Honors: Second Class Upper.

CERTIFICATIONS
